

2024 HOLIDAY IN HOMER SHOW DEDICATION

This year the community of Homer and Homer Congregational Church's Holiday in Homer celebrate that the beautiful green space in the center of our historic village is **250 years old!** This parcel of land, called "The Green" was first deeded to Revolutionary War soldiers in 1774 in return for their service in our young country's fight for independence. The plot that encompasses The Green was then deeded to the newly formed First Religious Society of Homer in 1805 for the construction of a meetinghouse and burial grounds.

The land was to be used for the good of community life in this verdant settlement, near the Tioughnioga River, among the gentle valleys that lace the region. Similarly, our Holiday in Homer has been established as an annual gathering of artisans that enables vendors, local residents, out-of-town visitors, serious customers and people simply out to enjoy a summer day to visit together. The Green is crowded with colorful tents and tables, and the air is rich with the scents of delicious food. Music drifts over the scene mingling with the sounds of people finding just what they are looking for, as well as finding the rich community of friends, neighbors, visitors and each other!

We are thankful for this land and for our community. We believe that those Revolutionary War soldiers would be proud to have provided for the togetherness taking place today.
